New Mustang Cologne is arriving this June! The case and look of the bottle is really sweet, I think I'd get it just for the looks and being a collector's item. I'm sure a lot of other enthusiasts are thinking the same thing. I bet they will sell a shit load of these, everyone knows how the Mustang is America's favorite sports car! Hopefully the Cologne smells as good as the Mustang looks, but I wouldn't get my hopes up...
